RE: Order # 2016-039-DWQ NPDES #CAG 90004

2025 NPDES Annual Report

To Whom it May Concern,
With this letter, please find the Marin/Sonoma Mosquito and Vector Control District's (MSMVCD) annual report for 2025 regarding the NPDES permit referenced above.

MSMVCD did not observe any adverse impacts from pesticide applications made and covered by the state-issued permit.

Per Attachment B, Section V.B.4 of the General Permit:

"I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations." (40 C.F.R. § 122.22(d).)

If you have any questions regarding this report, please contact the District at (707) 285-2200

Marin/Sonoma Mosquito and Vector Control District

2025 NPDES Annual Report

Order # 2016-0039-DWQ NPDES # CAG 990004

1. Annual Report
    a. Executive Summary

    The Marin/Sonoma Mosquito and Vector Control District (MSMVCD) complied with the applicable components of the General NPDES Permit for Biological and Residual Pesticide Discharges from Vector Control Application (General Permit). The District is a member of the Mosquito and Vector Control Association of California (MVCAC) NPDES Permit Coalition (Coalition) and the Coalition Annual Report will be sent separately to the SWRCB. The best management practices (BMPs) outlined in MSMVCD's Pesticide Application Plan (PAP) were appropriate and coincided with the District's Integrated Vector Management Program. The BMPs in MSMVCD's current PAP will continue to be utilized in 2026.

    The District made 9,428 applications to or near aquatic sources during the 2025 calendar year. The log of these applications can be found in Attachment A. The District continued to follow the guidelines of its PAP.

    b. Summary of Monitoring Data

    No adverse impacts from vector control applications were observed or reported by any of the individual applicators. No non-compliant applications were performed. The District's annual report tables include the application rate for each application reported.

    The Coalition will provide information on the incidence of West Nile virus and other similar public health threats in the Coalition's Annual Report.

    c. BMP Identification

    The BMPs currently outlined in the District's PAP were utilized and effective in 2025. Such BMPs include , for example: public relations/education, mosquito source reduction, biological control (e.g., mosquitofish), calibration of mosquito adulticide and larvicide equipment, and pesticide spill and spill prevention training. Implementation of these BMPs contributed to minimizing discharges of biological and residual pesticides.

d. Violation Discussion
No violations of the NPDES Permit were observed.

e. Map of Applications
Please see Attachment B

f. Log of Applications Made to Waters of the US
Please see Attachment A, which includes application data for the covered application areas.

g. General Information on Applications
The dosage, concentrations, and amounts of the products applied were derived from the product labels. Please see the application log (Attachment A)

h. Visual Monitoring Data
No adverse impacts from vector control applications were noticed or reported by any of the individual applicators.

i. BMP, PAP, Monitoring Program Recommendations
There are currently no recommendations suggested to improve the current PAP and monitoring plan.

j. Pesticide Application Log Made to Waters of the US
Please see Attachment A and Attachment B

2. Updated PAP Components
N/A

3. Self-Monitoring Reports
N/A

4. Monitoring Reports
Please see the MVCAC Coalition Annual Report
